

Out of the **39** young people featured in Tomorrow's Leaders - A world beyond disability only **56%** mentioned their FE provider as playing a part in their journey to success.

Of those, **68%** were positive about their experiences while the remaining **32%** highlighted some of the things they wished had been done differently.

Of those, **68%** were positive about their experiences while the remaining **32%** highlighted some of the things they wished had been done differently.

Young person,
reflecting on studying at
University

Words used by young people to describe the way FE staff supported them well

What did they like:

- ## What could be better:

“ I had a lot of 1:1 support that was well meaning, but stifling, I hated it, in a very typical teenage way!

I would have had disabled role models and examples of disabled people living, working and in relationships or with children perhaps, to show me that I could lead a typical life if I wanted to.

I face and observe others facing, professionals undermining their ability: too willing to disregard opportunities rather than making them accessible.
