

SENDIASS Ways of Working - Map

At the beginning of 2026, IASSN put out a survey to all SENDIAS services in order to research the range of work that SENDIAS services are currently engaged in. We wanted to capture the breadth and depth of SENDIAS services' work and were particularly interested in any areas of work that could be said to go beyond the core service offer. This infographic shows the areas of work in each Local Area.

Cumberland:
Joint working
with health for
Autism Pathway
Navigator
sessions

Newcastle:
CYP clinics in
education
settings
