

The National Network of 151 Special Educational
Needs and/ or Disability Information, Advice and
Support Services in 2024

An Average SENDIAS Service (if there
could be one)

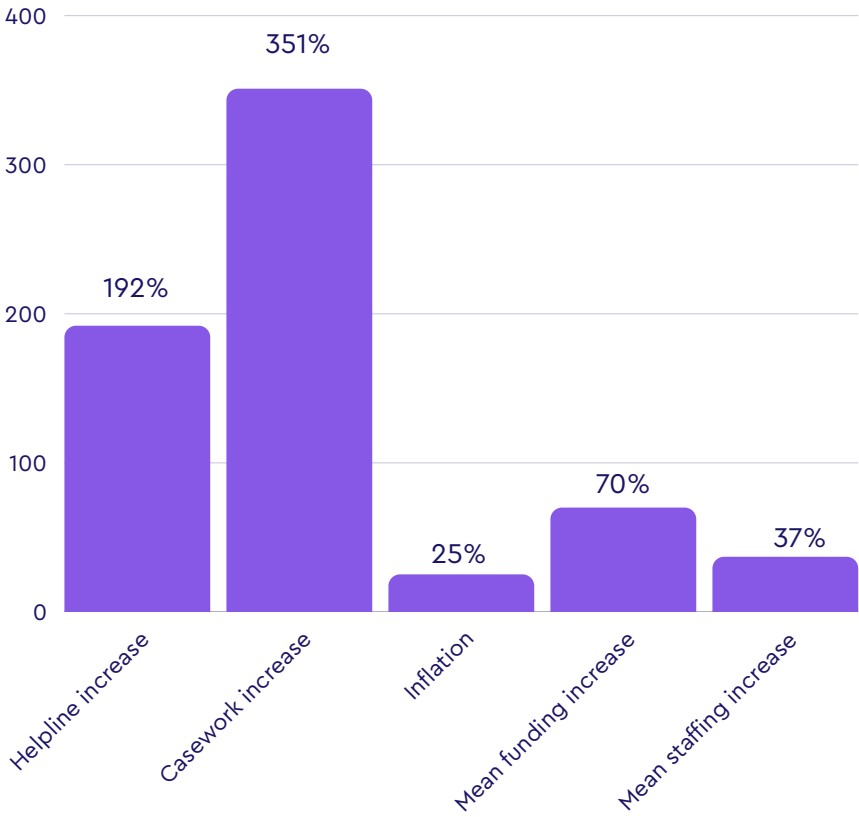

Full time staff	3.92
0-25 population covered	111,784
Funding per head of their LA's 0-25 population	£1.68
Km2	832
Yearly helpline enquiries	1959
Interventions/ casework	1572
Tribunals inputted to	91
Tribunals directly supported at	12
Training places offered	244
Resources downloaded from website	1875

The rising costs
associated with
running a service
means that the
impact of more
funding, will not
necessarily be
seen in staffing
capacity.

This data
highlights that
although core
funding is rising,
it will only have
an impact if it
rises quicker than
the rising costs
facing all services
across the sector.

Comparing funding increase with % growth of
casework, inflation, and staffing (2019-2024)

Biggest increase:
Casework (351%
over 5 years).

Funding struggles
to keep pace:
funding growth
(70%) vs. Inflation
(25.2%) and
casework (351%)

Minimal
staffing
growth: An
increase of
37% in 5 years
