

Focus on Health Advice e-learning

Level 1

Learning Log

Throughout this e-learning module, you will be prompted to use this Learning Log to reflect on practices in your local area, as well as completing activities. You may wish to use this to note down other thoughts as you go through the e-learning, as it will be a useful resource for conversations with colleagues about strengthening local processes and templates.

Lesson One: The purpose of the EHCP

Reflecting on the case studies (slide 12)

How might each individual's health needs result in them also having special educational needs?

What benefit might bringing together health and educational input have for them?

Reflecting on your role (slide 17)

Think about the interventions that you carry out in your role.

What broader impact might they have on the life of a child or young person?

Lesson Two: The role of advice in the EHCP

Differences between aspirations and outcomes (slide 9)

What are your aspirations? What outcomes do you need to set to achieve those aspirations?

What are some differences between aspirations and outcomes?

Section C: Health Needs? (slide 11)

Reflect on the difference between the two examples shown on slide 11:

Reflecting on how you way you usually write about children and young people's health needs (slide 12)

Think of a recent health advice you have written or would have.

- *Would it be accessible to a non-clinical expert?*
- *Does it consider the impact of the child or young person's health conditions?*

Joining the dots between aspirations, outcomes, needs via advice (slide 14)

Looking at formula, which element do you think needs improvement and which are strong? What factors contribute to this?

Joining the dots between aspirations, outcomes, needs via advice (slide 15)

What are some factors that would improve the bridges between the elements seen on the slide?

Notes

**Thank you for completing the Health Advice E-
learning Level 1**
